 - Events will start in feb, more info to come
- Peer advising
 - Big/little mentor program for terriers
 - Creating videos with CAS

8:25: 5 min q&a

Brumfield: Can you go into more detail about the BU merch policies?

Vice President: They have some preferred vendors for us to use, which do not fit our criteria. They have established diversity metrics. There's not a lot of transparency about percentages about vendors that fulfill this, though. We want to make this data public and increase diversity.

Majarwitz: Are previous StuGov LGBTQ initiatives being communicated?

President: This ties more into the connections with student health services as opposed to admin.

Kapadia: Will these events incorporate each college government at all? With their turnout and budgets?

Vice President: For the spring fest, yes! We will come to them with the finalized idea. We are always happy to collaborate.

Rahmani: Can you elaborate on the voting registration at orientation? Is it automatic?

Vice President: No it's tabling

Meyyappan: What were you thinking for the actual workout options for the wellness spaces?

Chief of Staff to the President: After doing site visits, we decided on Warren multipurpose room C. We are going to split it into different areas. One side will be more heavy movement based. The other side will be for lighter workouts, and an attached room for meditation and prayer.

8:30: floor closes to questions

8:33: Unmod

9:08: Unmod ends

9:08: Peow: Motion to table amending bill 006
9:08: Many seconds
